

Making Microsoft Dynamics GP Work Simpler & Easier for Healthcare

Improve business operations and reduce costs by extending flexibility, improving internal efficiencies and maximizing employee productivity. Our products assist with security, compliance, data retrieval, and patient record management in Microsoft Dynamics GP.

Our Passion

Rockton Software is a creative company that develops products that make Microsoft Dynamics GP more intuitive and user-friendly to improve customer's lives by making their work simpler and easier.

Rockton's Healthcare Industry Solutions

The highlighted products below have all been successfully implemented in Healthcare organizations.

SmartFill

Our best selling search tool for Microsoft Dynamics GP reduces data entry time by 75%.

Dynamics Report Manager

Rockton's premier report manager for Crystal Reports, SQL Reporting Services, and Microsoft Dynamics GP Reports. Schedule, email, and batch process reports.

Dynamics GP Toolbox

A collection of tools that secures, integrates, and simplifies day to day operations for both Administrators & End-users in Microsoft Dynamics GP.

"I can't get over how much I love your product. It takes just seconds to retrieve customers from a table with over 75,000 rows. This will be very useful with vendors and prevent duplicate vendor entry. Thanks so much for making this product!"
