

CLIENT

Shirley Ryan
Abilitylab

The Shirley Ryan AbilityLab is the first-ever “translational” research hospital where clinicians, scientists, innovators and technologists work together in the same space, applying research in real time to physical medicine and rehabilitation.

Industry: Healthcare

of Dynamics GP Users: 40

SOLUTIONS

RESULTS

With the addition of Rockton’s **Dynamics GP Toolbox**, the Shirley Ryan AbilityLab’s instance of GP is now HIPPA compliant. This was made possible by the robust security settings contained within the 27 tools of the toolbox. According to Application Manager Gary Mueller, the most used tools are:

- **Inactivity Timeout**, which prevents inactive users from staying logged in to the system
- **Password Policy Options** to keep passwords fresh and secure
- **Security Manager** for reporting and managing all of their security tasks and roles in GP

Rockton’s **SmartFill** has saved the Shirley Ryan AbilityLab a combined two hours per week on Dynamics GP related tasks. In addition to the time-savings, SmartFill met the organization’s specific need of searching by item description on an item card.

When it comes to Rockton’s service and support, Mueller said, “They are great! They are always very responsive and helpful.”
