

Auditor

Changes happen. Now you have a way to track them all.

While fraud prevention is the most common reason Auditor provides outstanding value for Microsoft Dynamics GP, the personal and customized fit offers the flexibility of tracking data changes for many reasons: monitors and measures user performance, data integrity, and compliance. This includes your Microsoft Dynamics GP accounting system, at the SQL database level, and any 3rd party products.

Are you ready to **work simpler & easier®**?

Extend the power of Microsoft Dynamics GP with tools that will rock your world.
