

Dynamics GP Toolbox

27 helpful tools in one convenient package? Just when you thought it couldn't get any better.

Dynamics GP Toolbox is a collection of tools our customers have asked for and was created to address pain points in Microsoft Dynamics GP. It was built by combining popular products to arm our customers with more ways to simplify their day-to-day operations. System Administrators, Accountants, and End Users love this product!

Are you ready to *work simpler & easier*®?

Extend the power of Microsoft Dynamics GP with tools that will rock your world.

Security: *Inactivity Timeout* allows you specify a particular time where all users should be logged out of the system. You can also assign different timeout periods for an individual or a group of users. Included tools: *Password Policy Options, User Lockout, Safe Login, Redirect, Security Manager, Security What If?* and *Task Builder*.

Administration: *System Lockout* gives you the ability to schedule your system lockout process for a future date and time. Included tools: *Version Pro, Login Logging, User Groups, and Conditional Field Level Security*.

Business Processes: *Period Open/Close* allows you to open, close, and create fiscal periods across all companies from one screen. Included tools: *Reason for Hold, DocSync, Payment Approval, Batch Review Window* and *Reset Batches*.

User Experience: *Mentor* gives you the ability to search for, open, and get information about windows in Microsoft Dynamics GP. Included tools: *Inspector, Auto Login, Object Popups, Popups (Notes, My Notes, and Tips), and Widgets (Close Confirmation, Company in the Title Bar, Auto Fill System Password)*.
