

Omni Price

Manage nearly every pricing situation you can think of and a bunch you haven't.

Omni Price enhances your GP pricing using layered and configurable price sheets and advanced filter-based selections, which allows pricing to be driven by Customer, Item, Date, and other related fields. It is great for retail, manufacturing, and distribution.

Are you ready to *work simpler & easier*®?

Extend the power of Microsoft Dynamics GP with tools that will rock your world.

Create and Apply Contract Pricing: Unlimited contracts using filters on customers, dates, items, or other fields

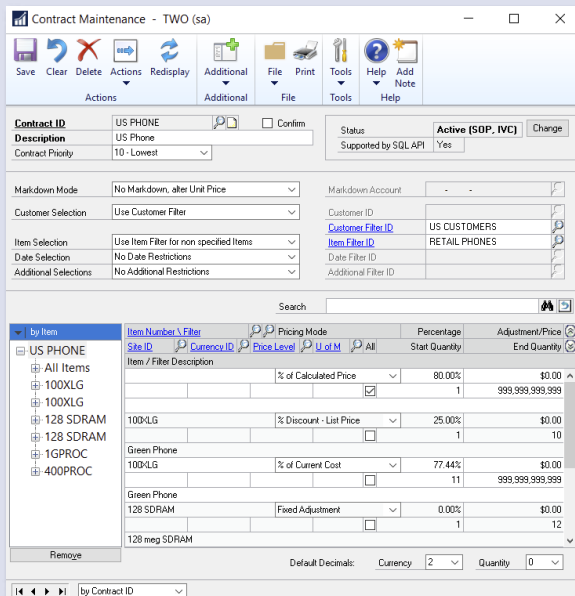

Variable Price Calculations: Over a dozen modes to determine item pricing calculations

Price Rounding: Round your price up or down to the nearest nickel, dime, or dollar

Contract Maintenance: Allows you to assign a priority to your contract and choose to have the markdown amounts go to a different account

Price Check: View how the price is being calculated in a single GP window

Contract Mass Update: Easily update multiple contracts
