

Project Cost

# Intuitive Cost Management for Dynamics GP

## What Project Cost Does

**Integrates** with Payables, Receivable, Inventory, Sales Order, Purchase Order, Payroll, General Ledgers, GP Requisition, Cash Receipts, and SmartList Modules

**Eliminates** unnecessary keystrokes and double entry

**Automates** the creation of invoices, employee expense transactions, payroll transactions, project budgets, and project purchase orders.

**Imports** projects/tasks and provides up to 9 levels of task hierarchy for flexibility.

**Supports** FARS Accounting Requirements, and is FASB, NSF & DCAA compliant.

## How Project Cost Makes Your *Work Simpler & Easier*® in Dynamics GP

- » Users can **logon anywhere/anytime** to record Time and Expense information
- » Managers can use the **powerful Budgeting and Project Analysis Tools** to track the revenue and spending for any project and create, view, and edit projects
- » IT Managers can **set access rights and duties** by user, group, project, or task.
