Work Simpler & Easier®

Auditor

Track it.
Audit it.
Authorize it.
Report it.

What Auditor Does

Create your own audits with an intuitive setup

Ensure specific changes are authorized with built-in E-Sign electronic signature

Track data changes at the table level or SQL level

Require users to write a note of explanation when they change or update a field

How Auditor Makes Your *Work Simpler & Easier*®

» Payroll Administrators can track changes to important employee information, such as sick time.

» IT and System Administrators can audit data and security changes throughout GP and 3rd party products.

» Sales Managers can see when additional items are added to orders or invoice prices are modified.

» Payables teams have full visibility to new vendors and existing vendor changes.
