Compatibility with Dynamics GP 18.7
Omni Price has been updated for compatibility with the Microsoft Dynamics GP October 2024 release (18.7).

Subscription Last Checked Date
The Subscription registration dialog will now only appear for Admin users of any Rockton Software product if the "Last Checked" date is missing or if two months have passed since the last check. This date is stored in the RSIGLOBL SQL table.

Subscription Registration Timeout Notification for Admins
The timeout period for Rockton Software product software registration checks has been reduced from 1 minute 40 seconds to 45 seconds before notifying the user of a timeout. This message will only appear for Admin users; non-Admin users will not see the timeout notification during subscription registration checks.

Subscription Registration Dialog Limited to Admin Users Only
The Subscription Registration dialog will now only appear for users who are Admins of any Rockton Software Foundation product. Non-Admin users will no longer see the Subscription Registration dialog

for any Rockton products.

Timestamp Logging to Script Log

A timestamp will now be added to the script log for Rockton Software Foundation products. In the "Enable or Disable Script Logging" window, when logging is enabled, the system will check for the "ScriptLogEnhanced=TRUE' setting in the dex.ini file. If this setting is missing or set to False, the system will prompt you to add it. Be sure to exit Dynamics GP before starting the logging process.
